# Yiqi's Tech

Replaced the old Y with a **bespoke, flat, squareish** 'Y', trading traditional curves for **geometric stability** and **modern technical reliability**.

Reimagined the **q** as a **mobile device pictogram**, integrating a **spanner** into the frame to visually represent **hardware repair expertise**.

Yiqi's Tech → ***Yiqi's Tech***

Replaced the traditional, dated lettering with ***Archivo Black Italic*** to create a **high-impact technical identity**. The bold, slanted profile communicates **modern speed and industrial reliability**, positioning the brand as a professional in phone repair.
